

Interactive Histogram created with Shiny for the Data Products Project, (Johns Hopkins Data Science Certification)

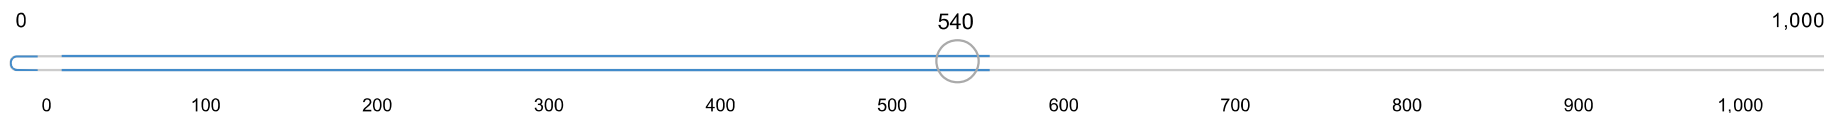

Choose Plot Color:

lightgreen

Number of bins data is placed into

30

Choose a value for the number of random data points to be generated)

Pick a Date when the Data was generated:

2017-02-09

Pick a Date when the Data was analyzed:

2017-02-11

R script: App01-template_hist_color_bin_date.R
